

Lets make it last

Verse:

Baby you and me
Been like a slow drought
Used to be on fire now we're all burnt out
Standing at a crossroad, no doubt

Baby you and me
Like a broken beat
Tried to find the rhythm hit a dead end street
How we got to here is a mystery

Pre Chorus

Love moves like a river flows
No one knows where it goes

Chorus:

Lets make it last
Put a new record on
I'm so tired of this old song
Turn it up a notch
Let's Show 'em what we got
Lets make it last
This is to good to lose
Baby we can kick this blues
Honey break the beat
on the song that's on repeat
and make it last

Verse:

Baby you and me
Like an endless sea
Like a bright light shining down on me
You're all the colors I see

Baby you and me
On a long lost road
Thought we both gone missing but we broke the code
Honey what we got here is gold

Pre Chorus

Love moves like a river flows
No one knows where it goes

Chorus:

Lets make it last
Put a new record on
I'm so tired of this old song
Let's turn it up a notch
Let's show em what we got
Lets make it last
This is to good to lose
Baby we can kick this blues
Honey break the beat
on the song that's on repeat
and make it last
