

Drinking you off my mind
Karin Thyr Eriksson & Göran Eriksson

Verse:

Hangin' on to hope and holding on to a dream
Wishing for the kind of love you see in magazines
The illusion falls and nothing's what it seems to be
And the part left is hurting deep inside of me

Verse:

Heard a whisper someone saw you at the bar
Was it on the same night you had trouble with your car?
It's getting old, I've heard your stories told a thousand times
Baby you are using the same old lines

Chorus:

I'll leave it all behind
I've wasted too much time
I've been blind
Cause there's no fixing
What's been broken
This ain't the first time I'll be drinking you off my mind

Verse:

Walking down the street the rain is pouring down
But my feet are walking to a different sound
I'll leave the bitter taste of love gone bad, I'm finally free
In the mirror I can see a different me

Chorus:

I'll leave it all behind
I've wasted too much time
I've been blind
Cause there's no fixing
What's been broken
This ain't the first time I'll be drinking you off my mind

Bridge:

Love is gone
And there's no road leading us back home
This ain't the first time
But it's the last time
At the bottom of the barrel there's no love to be found
This ain't the first time I'll be drinking you off my mind

Solo

Chorus:

I'll leave it all behind
I've wasted too much time
I've been blind
Cause there's no fixing
What's been broken
This ain't the first time I'll be drinking you off my mind
Its a good day to be drinking until I'm fine
