

Lets make it last

Karin Thyr Eriksson & Göran Eriksson

Baby you and me
Been like a slow drought
Used to be on fire now we're all burnt out
Standing at a crossroad, no doubt

Baby you and me Like a broken beat
Tried to find the rhythm hit a dead end street
How we got to here is a mystery

Love moves like a river flows. No one knows where it goes

Lets make it last
Put a new record on I'm so tired of this old song
Turn it up a notch. Let's Show 'em what we got
Lets make it last This is to good to lose
Baby we can kick this blues
Honey break the beat on the song that's on repeat
And make it last

Baby you and me
Like an endless sea. Like a bright light shining down on me
You're all the colors I see

Baby you and me
On a long lost road
Thought we both gone missing but we broke the code
Honey what we got here is gold

Love moves like a river flows. No one knows where it goes
